

Belfast Public Works Project Subcontractor Prequalification

On behalf of the City of Belfast, Ledgewood Construction, the project's construction manager, is currently prequalifying subcontractors for the Belfast Public Works Project. Work includes a 28,000 SF public works building and the 9,000 SF sand / salt storage building and associated site development. Trades sought include:

- Earthwork
- Concrete Foundations
- Concrete Slab
- Masonry
- Structural Steel
- Miscellaneous Metals
- Rough Carpentry
- Millwork
- EPDM Membrane Roofing
- Insulated Wall Panels
- Doors, Frames & Hardware
- Overhead Doors
- Aluminum Storefront Windows, Glass & Glazing
- Light Gauge Metal Framing & Drywall
- Flooring and Tile work
- Acoustical Ceilings
- Painting
- Building Specialties
- Overhead Bridge Crane
- Fire Sprinkler
- Plumbing / HVAC
- Electrical

Subcontractors interested in bidding the project must e-mail Ledgewood Construction (mail@Ledgewoodconstruction.com) by May 5, 2018 expressing their interest in getting prequalified. Upon receipt of the request Ledgewood will forward a qualification form to the contractor. Completed contractor's qualification forms must be returned to Ledgewood by May 18, 2018.

Final bid packages will be available the first part of June with an anticipated construction start of July 2018 and competition of July 2019.
