Re: WWTP Capacity Confirmation Request – Nordic Aquafarms Inc. Sanitary Wastewater Flow

Dear Andrew:

I thank you and Nordic Aquafarms for reconsidering the addition of floor drain wastes to the sanitary wastewater flow. The City has the necessary collection and treatment capacity to accept the estimated average daily flow of 1,500 gallons of sanitary wastewater referenced in your March 14, 2019 letter.

If you have any questions or require additional information please call me at 649-9005.

Sincerely;

Jon Carman, WWTF Superintendent
